Work Experience

Senior Frontend Developer

Horizontal Digital, Vadodara July 2023 - Present

- Lead the design and development of responsive, scalable client-side applications using ReactJS, NextJS, and Sitecore SXA/XMC.
- Collaborate with cross-functional teams to create innovative solutions tailored to enterprise clients.
- Drive frontend architectural decisions, ensuring scalability and performance optimization.
- Mentor and guide junior engineers, sharing best practices for modern JavaScript frameworks.
- Manage and optimize continuous integration and delivery pipelines.

Frontend Developer

OpenEyes Technologies Inc., Vadodara Dec 2021 - Jun 2023

- Led frontend development on large-scale applications using ReactJS, Angular, and VueJS with Kendo-UI.
- Worked independently and as a team lead, overseeing a team of 5 developers on ReactJS projects.
- Implemented frontend architectures focusing on performance optimization and scalability.
- Developed and deployed Chrome extension projects, ensuring seamless integration with backend systems.

Software Engineer

Future Link Consultants, Vadodara Sep 2017 - Nov 2021

- Developed high-quality web applications using PHP, Laravel, ReactJS, and Firebase, with Stripe integration for SaaS (Software as a Service) Platforms.
- Enhanced user experience and SEO functionality on React-based and WordPress projects.
- Contributed to improving frontend performance through innovative solutions and cross-functional collaboration.

Core Competencies

- GenAI Tools, GSAP, Three.js
- Frontend Development: ReactJS, NextJS, VueJS, Angular, JavaScript (ES6+), TypeScript
- Backend Development: NodeJS, PHP (Laravel), RESTful APIs, Socket.io
- UI/UX Design: Material UI, Kendo UI, Tailwind CSS, CSS3, Figma, Adobe XD
- Tools: Webpack, Babel, GitHub CI/CD, Jenkins, Firebase, Stripe, Heroku
- Project Management: Jira, Trello, Asana, Agile Methodologies
- Architectural Leadership: Leading frontend architecture decisions, mentoring engineers, implementing Test-Driven Development (TDD), Continuous Integration, and Delivery (CI/CD)

Hobbies

- Reading Tech Related Content
- Creating Personal Projects
- Gaming
- Learning New Technologies

Achievements

- Simultaneously Led Two Teams to Deliver a Scalable B2B Solution: Coordinated two development teams, ensuring the timely delivery of a scalable, high-performance B2B solution that enhanced client operations and exceeded project expectations.
- Mentored a Team of Junior Developers: Conducted training sessions and webinars.
- Received Nominations and Shout-outs for Excellence: Recognized for exceptional efforts, commitment, and a "Never Settle" attitude

Selected Projects

● Animato Shoe

NextJS & GSAP-based Interactive Web Application

- Developed an interactive web application using NextJS and GSAP to create engaging, visually appealing animations, providing a unique user experience with smooth on-scroll effects.
- Implemented, code splitting, lazy loading and optimized animations for performance, reducing initial load time by 30%.
- Ensured cross-browser compatibility and responsiveness across different devices, improving accessibility for all users.
- Translated creative concepts into a functional and interactive interface, meeting high standards for visual design and performance.

● E-commerce World

ReactJS E-commerce Platform with Firebase & Stripe

- Built a fully functional e-commerce platform using ReactJS, incorporating features like product listings, shopping cart functionality, and secure payment gateways.
- Utilized Firebase as a real-time database to manage user authentication, data storage, and synchronization, providing a seamless user experience.
- Integrated Stripe API for handling secure payments.
- Deployed the application on Heroku, implementing CI/CD pipelines to streamline deployment and ensure smooth updates.

● Business Management Dashboard

React.js & Node.js Business Portal for B2B Services

- Developed a comprehensive business management dashboard for B2B clients using React.js on the frontend and Node.js for backend services.
- Integrated RESTful APIs to fetch and display dynamic data from multiple sources, providing real-time insights into business operations.
- Implemented role-based access control (RBAC) to ensure data security and appropriate user permissions across different levels of the organization.

● TeamChat - Realtime Chat Application

Node.js & Socket.io-based Communication Platform

- Designed and developed a real-time chat application using Node.js and Socket.io, enabling real-time messaging between multiple users in chat groups.
- Implemented WebSocket technology for efficient, low-latency communication, ensuring a smooth user experience with instantaneous message delivery.
- Incorporated features such as notifications, group chat management, and message status tracking (read, delivered) to enhance the user experience.
- Integrated audio notifications for incoming messages, improving user engagement.
